## **DETAILED ACTION**

### ***Response to Amendment***

1. Responsive to amendment received on November 29, 2004, claims 9-15 are canceled as requested.

### ***Allowable Subject Matter***

2. Claim 1-8 and 16-32 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The present invention is directed to monitoring and transferring data in ATM switch.

The closest prior art, Munter (US 5,475,679) teaches converting data to a parallel format in a serial-to-parallel converter, writing data to memory banks and reading data out of the memory banks using scheduler. Munter, however, fails to teach monitoring both the serial-to-parallel converter and the memory banks for the data accumulation. These features are claimed in the independent claims 1, 16, 24 and 32 and render them allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
